CTE MV/LV Containerised Transformer Substation

CTE MV/LV Outdoor Containerised Substation:

- Manufactured for outdoor and construction site installation;
- Free-standing containerised unit, easy to move and turnkey installed;
- Provided with M.V. switchgear, transformer and L.V. switchgear and possibly APFC;
- Equipped with safety equipment;
- Designed to suit the customer's requirements;
- Doesn't require a building permit.

Safety and reference standards

According to specific needs, the CTE substations can be equipped with:

- permanent CSC certificate for international transport
- · certified for ABS / RINA marine applications
- internal arc certified up to 20kA / 1sec.

The panels installed inside comply with the IEC International standards.

Electrical Features

Transformer compartment

The MV/LV transformer substation is supplied with a cast resin transformer; oil or air insulated transformers are also available on request. The transformer installed may be from 100kVA to 4500kVA.

L.V. Switchgear Main Electrical Features

400 Vac
6300 A

Fittings & Accessories

Accessory electrical equipment

- Fixed PFC;
- UPS (Uninterruptable Power Supply);
- Automatic PFC (optional);
- · Fire detection and extinguishing (optional).

Internal accessories and auxiliary installations

- Lighting installation with electric switch;
- Interlocked socket 230 Volt 16A;
- Accident prevention accessories: powder extinguisher, recharging emergency lighting, insulated carpet, warning notice, substation electrical drawing.

External cabinet accessories

- Warning horn (IP66) suitable for long time continuous activation;
- Flashing warning light (IP55);
- Emergency pushbutton under glass.
